

# Layout 2 / SP

With time and temperature controls. Group 3 and 4 boilers operate on demand only.

**Please note:** When using this system, if the solid fuel stove is on a very low heat and is not heating the water up to 70°C in the Neutraliser; if either Central Heating or Domestic Hot Water demand is called for on the programmer, there will be a demand on the Gas/Oil Boiler at the same time.

## THE BEST OF BOTH WORLDS LINK UP WITH DUNSLEY NEUTRALIZER SYSTEM

All Dunsley Products are manufactured in Great Britain

Please note these Dunsley Link-up designs are copyrighted for use with the Dunsley Neutralizer system and are not for use with other types of link-up systems as they may not work and we cannot be held responsible for and problems or system failure that may occur.
